PLEASE DELIVER THE ATTACHED TO
SUPERVISORY PRIMARY EXAMINER RICHARD ELMS

Dear Mr. Elms:

Thank you for your phone call and for checking into this matter. Enclosed please find copies of the Amendment which we filed on July 28, 2003, together with copies of the Submission of Documents, Statement of Status and Support for Changes in Claims, and Claim for Foreign Priority filed with the Amendment. In addition, enclosed please find a copy of the Auto-Reply facsimile transmission from the USPTO indicating that these papers were received by facsimile transmission in the USPTO at 5:45 pm on July 28, 2003.

Inasmuch as the six month statutory due date for filing the Notice of Appeal expires on October 28, 2003, I greatly appreciate your prompt assistance in this matter. Please give me a call if you have any questions or need any additional information to assist Examiner Nguyen in continuing her examination of this case.

If you experience any problem regarding this transmission, please contact Deb Therrien at ext. 6633.

Confirmation Copy will not follow.

CONFIDENTIALITY NOTICE: The document accompanying this facsimile transmission contains confidential information belonging to the sender which is legally privileged. The information is intended only for the use of the individual(s) or entity(ies) named above. If you are not the intended recipient, you are hereby notified that any disclosure, copying, distribution or the taking of any action in reliance on the contents of this facsimile information is strictly prohibited. If you have received this facsimile in error, please immediately notify us by telephone to arrange for return of the original document to us.

AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

July 28, 2003

Sir:

In response to the Final Office Action dated April 28, 2003, please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claims 1 and 2 as follows:

1. A semiconductor memory comprising:

a plurality of first regions arranged in lattice fashion, each of which corresponds to a memory array including a plurality of main word lines extending in a first direction, a plurality of sets of sub-word lines extending in said first direction, a plurality of pairs of data lines extending in a second direction, perpendicular to said first direction and a plurality of memory cells, each of which is coupled to a corresponding one of said plurality of sub-word lines and a corresponding one of said data lines, one of said
